Written Confirmation of Closing of Transfer of Generation Facilities and Request for Transferor Licence Cancellation.

By Decision and Order issued September 19, 2013 the captioned Met Fiera Solar project partnerships (Licencees) were each granted Electricity Generation Licences (EG-2013-0235, 0236 and 0240). The Decision and Order was premised on each of the Licencees acquiring from project entities owned by Recurrent Energy Lux Holdings S.ár.l the following generation facilities, each as identified in the respective applications of each of the three Licencees:

1. Orillia 1, OPA Contract Identification Number F-000535-SPV-130-505.

2. Orillia 2, OPA Contract Identification Number F-000536-SPV-130-505.

3. Midhurst 4, OPA Contract Identification Number F-000586-SPV-130-505.

The Decision and Order provided in the case of each licence that:

1. The licence will become effective on the date upon which the licencee files with the Board an executed copy of the Ontario Power Authority's (OPA) *Assumption and Acknowledgement Agreement* in respect of the transferred facility, and a written confirmation that the commercial transaction has closed.

2. Schedule 1 of the Licencees' licence, which ordinarily describes the generation facilities for which the applicant is being licensed, will be completed when the Board receives written confirmation from the licencee that the commercial transaction that is the subject of the licence has closed and that the generation facility has been transferred to the licencee.

(b) A copy of the OPA's executed *Assumption and Acknowledgement Agreement* for the generation facility transferred.

In addition, through the attached confirmations, each of the sellers is also requesting, and has authorized us to file on its behalf its request for, cancellation of its Electricity Generation Licence (EG-2013-0088, EG-2012-0356 and EG-2012-0357).
