ONTARIO ENERGY BOARD NOTICE
TO CUSTOMERS OF ENBRIDGE GAS INC.

Enbridge Gas Inc. has applied to raise its natural gas rates effective April 1, 2020, to recover costs associated with the federal government's *Greenhouse Gas Pollution Pricing Act,* and to recover certain related account balances.

Learn more. Have your say.

Enbridge Gas Inc. (Enbridge Gas) has applied to the Ontario Energy Board for approval to increase its rates effective April 1, 2020, to recover the costs associated with meeting its obligations under the federal government's *Greenhouse Gas Pollution Pricing Act.* Enbridge Gas has also applied to recover from customers the balances in the related deferral and variance accounts.

The *Greenhouse Gas Pollution Pricing Act* establishes a carbon pricing program under which a natural gas utility in Ontario, such as Enbridge Gas, is required to pay a carbon charge for the natural gas that it delivers to its customers. The carbon charge came into effect on April 1, 2019, and will increase on April 1, 2020. The costs related to emissions from the operation of Enbridge Gas' natural gas distribution system are also increasing.

Enbridge Gas says that if its application is approved as filed, it will have the following bill impacts:

- **A typical residential customer in the EGD rate zone (former customers of Enbridge Gas Distribution Inc.) will see a bill increase of $68.75. This is composed of a $47.16 yearly bill increase arising from the 2020 carbon charges, plus a one-time charge of $21.59, to recover the balances in the related deferral and variance accounts.**
- **A typical residential customer in the Union South rate zone (former customers of Union Gas Limited), will see a bill increase of $61.32. This is composed of a $43.15 yearly bill increase from the 2020 carbon charges, plus a one-time charge of $18.17, to recover the balances in the related deferral and variance accounts.**
- **A typical residential customer in the Union North rate zone (former customers of Union Gas Limited), will see a bill increase of $61.97. This is composed of a $43.15 yearly bill increase arising from the 2020 carbon charges, plus a one-time charge of $18.82, to recover the balances in the related deferral and variance accounts.**

Other customers, including businesses, will also be affected. It is important to review the application carefully to determine whether you will be affected by the changes.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

Ontario Energy Board *Commission de l'énergie de l'Ontario*

AVIS DE LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO AUX CLIENTS D'ENBRIDGE GAS INC.

Enbridge Gas Inc. a déposé une requête en vue d'obtenir une augmentation de ses tarifs de gaz naturel à compter du 1er avril 2020 afin de recouvrer les coûts associés à la *Loi sur la tarification de la pollution par les gaz à effet de serre* (loi fédérale) et de recouvrer certains soldes de comptes connexes.

Renseignez-vous. Donnez votre avis.

Enbridge Gas Inc. (Enbridge Gas) a déposé une requête auprès de la Commission de l'énergie de l'Ontario dans laquelle elle demande l'autorisation d'augmenter ses tarifs à compter du 1er avril 2020 afin de recouvrer les coûts associés au respect de ses obligations en vertu de la *Loi sur la tarification de la pollution par les gaz à effet de serre* (loi fédérale). Enbridge Gas a également déposé une requête pour recouvrer auprès de ses clients les soldes des comptes de report et d'écart connexes.

La *Loi sur la tarification de la pollution par les gaz à effet de serre* établit un programme de tarification du carbone en vertu duquel une compagnie de gaz naturel en Ontario, comme Enbridge Gas, est tenue de payer une taxe sur le carbone pour le gaz naturel qu'elle livre à ses clients. La taxe sur le carbone est entrée en vigueur le 1er avril 2019 et augmentera le 1er avril 2020. Les coûts relatifs aux émissions provenant de l'exploitation du réseau de distribution de gaz naturel d'Enbridge Gas augmentent également.

Enbridge Gas indique que si cette requête est approuvée telle quelle, elle aura les incidences suivantes sur la facture :

- **Un client résidentiel type dans la zone de tarification d'EGD (par exemple un ancien client d'Enbridge Gas Distribution Inc.) verra sa facture augmenter de 68,75 $. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 47,16 $ sur la facture découlant de la taxe sur le carbone 2020, et des frais non récurrents de 21,59 $ visant à recouvrer les soldes des comptes de report et d'écart connexes.**
- **Un client résidentiel type dans la zone de tarification d'Union Sud (par exemple un ancien client d'Union Gas Limited) verra sa facture augmenter de 61,32 $. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 43,15 $ sur la facture découlant de la taxe sur le carbone 2020, et des frais non récurrents de 18,17 $ visant à recouvrer les soldes des comptes de report et d'écart connexes.**
- **Un client résidentiel type dans la zone de tarification d'Union Nord (par exemple un ancien client d'Union Gas Limited) verra sa facture augmenter de 61,97 $. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 43,15 $ sur la facture découlant de la taxe sur le carbone 2020, et des frais non récurrents de 18,82 $ visant à recouvrer les soldes des comptes de report et d'écart connexes.**

D'autres clients, notamment les entreprises, seront touchés. Nous vous recommandons de vérifier soigneusement cette requête afin de déterminer si vous êtes concerné par ces modifications.

LA COMMISSION DE L'ÉNERGIE DE L'ONTARIO TIENDRA UNE AUDIENCE PUBLIQUE

La Commission de l'énergie de l'Ontario (CEO) tiendra une audience publique afin d'étudier la requête déposée par Enbridge Gas. Pendant cette audience, la CEO interrogera Enbridge Gas à propos de sa requête et écoutera les questions et les arguments des participants (appelés « intervenants ») qui se sont inscrits pour prendre part de manière active à l'audience.

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Sch. B;

AND IN THE MATTER OF an application by Enbridge Gas Inc., for an order or orders for gas distribution rate changes and clearing certain non-commodity deferral and variance accounts related to compliance obligations under the *Greenhouse Gas Pollution Pricing Act*, S.C. 2018, c. 12, s. 186.

ENBRIDGE GAS INC.

---

1. Enbridge Gas Inc. ("Enbridge Gas"), the Applicant, was formed by the amalgamation of Enbridge Gas Distribution Inc. and Union Gas Limited on January 1, 2019 pursuant to the *Ontario Business Corporations Act*, R.S.O. 1990, c. B. 16. Enbridge Gas carries on the business of distributing, transmitting and storing natural gas within Ontario.

2. On June 21, 2018, the *Budget Implementation Act, 2018, No. 1* received Royal Assent. Included in Part V is the *Greenhouse Gas Pollution Pricing Act*, S.C. 2018, c. 12, s. 186 ("GGPPA"). Under the GGPPA, a federal carbon pricing program (the "FCPP") applies to any province or territory that requested it or that did not have an equivalent carbon pricing system in place by January 1, 2019. On October 23, 2018, the federal government confirmed that the GGPPA would apply to Ontario.

3. The FCPP is composed of two elements: (i) a charge on fossil fuels (the "Federal Carbon Charge") imposed on distributors, importers and producers effective April 1, 2019; and (ii) an Output-Based Pricing System ("OBPS") for prescribed industrial facilities effective January 1, 2019. Enbridge Gas's operations as an integrated natural gas utility in Ontario fall under the purview of the GGPPA, which result in the following costs being incurred:
    a. Incremental administration and program costs;

b. Customer-related Federal Carbon Charge costs for volumes delivered by Enbridge Gas to its residential, commercial and industrial customers who are not covered under the OBPS; and

c. Facility-related costs ("Facility Carbon Charge") arising from Enbridge Gas's facilities and operation of its gas distribution system.

4. In its 2019 FCPP application and pre-filed evidence (EB-2018-0205) ("2019 Application"), Enbridge Gas sought interim Ontario Energy Board ("OEB") approval by February 28, 2019 of just and reasonable rates effective April 1, 2019 for the EGD rate zone and Union rate zones, to recover the costs associated with the GGPPA as a pass-through to customers. On February 28, 2019, the OEB issued an Interim Decision and Accounting Orders: (i) approving the establishment of FCPP-related accounts and Accounting Orders on an interim basis; and (ii) denying interim rates effective April 1, 2019. The reason that the OEB gave for not approving interim rates was to "…consider the comments of stakeholders and submissions of parties prior to making a determination on any new charges and related bill presentation issues."[1] The OEB subsequently "…generally found the proposals by Enbridge Gas reasonable…"[2] approving forecasts, rate riders and charges as filed and finalizing the establishment of new FCPP-related deferral and variance accounts.[3]

5. Similar to its 2019 Application and in accordance with the 2019 Application OEB Decision and Accounting Orders, Enbridge Gas hereby applies to the OEB, pursuant to the *Ontario Energy Board Act, 1998,* S.O. 1998, c.15, Schedule B ("OEB Act"), for:

a. an order or orders allowing it to charge customers a Federal Carbon Charge on a volumetric basis, in the amount of the Federal Carbon Charge required to be paid pursuant to the GGPPA, effective April 1, 2020;

b. an order or orders approving or fixing just and reasonable rates for all Enbridge Gas rate zones (EGD, Union North and Union South),[4] effective

[1] EB-2018-0205, Interim Decision and Accounting Orders, February 28, 2019, p. 4.
[2] EB-2018-0205, Decision and Order, July 4, 2019, pp. 1-2.
[3] EB-2018-0205, Decision and Order, July 4, 2019, pp. 5-6, 9-10 and 12.
[4] Collectively, the Union North and Union South rate zones are referred to as the "Union rate zones".

c. April 1, 2020, to allow Enbridge Gas to recover other costs (including Facility Carbon Charge costs) in compliance with the GGPPA; and

d. approval of 2019 balances for all FCPP-related deferral and variance accounts, for all Enbridge Gas rate zones, as set out in Exhibit C and for an order or orders to dispose of those balances.

6. To meet the April 1, 2020 effective date, Enbridge Gas requests that the OEB approve its proposed rates and 2019 FCPP-related deferral and variance account balances for disposition no later than February 13, 2020. The nature of the FCPP charges and bill presentment are not at issue in this case as in the 2019 Application.

7. If the OEB considers that it is not possible to provide the approvals sought by February 13, 2020, then Enbridge Gas requests that the OEB approve its proposed rates on an interim basis by February 13, 2020 to avoid the accumulation of unbilled and uncollected amounts from customers that could result in a larger impact on bills when such amounts are recovered in the future. /C /C

8. Enbridge Gas further applies to the OEB for all necessary orders and directions concerning pre-hearing and hearing procedures for the determination of this application.

9. This application is supported by written evidence that has been filed with this application and may be amended from time to time as circumstances may require.

10. The persons affected by this application are the customers resident or located in the municipalities, police villages, Indigenous communities and Métis organizations served by Enbridge Gas, together with those to whom Enbridge Gas sells gas, or on whose behalf Enbridge Gas distributes, transmits or stores gas. It is impractical to set out in this application the names and addresses of such persons because they are too numerous.

11. Enbridge Gas requests that the OEB's review of this application proceed by way of written hearing in English.

12. Enbridge Gas requests that all documents relating to this application and its supporting evidence, including the responsive comments of any interested party, be served on Enbridge Gas and its counsel as follows:
