It's sad that the hydro company wishes to yet again raise hydro rates.
I see that we this country sells their hydro cheaper to the USA! Why is it they get better deals on our hydro while Canadian's pay for the USA cheap hydro?
Just in the recent year the world hydro went through a major pandemic people like myself may never recover.
You asking to change the charges the price of my hydro. I pay roughly $263.00 a month in hydro bill.
If there's 166,666 residents in the district then that hydro should roughly have in hand $525 million what these people increasing the rate to gain MORE Profit!

I believe if the hydro needs a rate change to increase their profits this individual would like hydro to agree delay there increase till a later date to when their customers are fully back to work.
