Subject: EB-2021-0269 Forest Creek Estates Subdivision Request For Natural Gas

Forest Creek Estates is a 50 lot subdivision started in 2018 and sold out in 2021.
50 new large country homes are under construction or occupied at this moment. We are within 2 km of your proposed line on Grey Road 3, within West Grey, and strongly support the Ontario Energy Board, and the Ontario Government's desire to provide Natural Gas service to these new rural homes.
We look forward to our involvement as intervenors in this process.
