Ms. Kirsten Walli  
Secretary  
Ontario Energy Board  
Suite 2700, 2300 Yonge Street  
P.O. Box 2319  
Toronto, ON.  
M4P 1E4

Dear Ms. Walli:

**EB-2008-0272 – Hydro One Networks' 2009-2010 Transmission Rate Application – Confidential Filing of Response to Interrogatories I-1-63 and I-1-64**

I am attaching a copy of the response to the Board Staff Interrogatories Exhibit I, Tab 1, Schedule 63 and Exhibit I, Tab 1, Schedule 64. These interrogatory responses provide a copy of the economic evaluations for the Load Customer Connection projects referenced in the interrogatories.

Hydro One Networks Inc. (“Hydro One”) asks for confidential treatment of the attachments to these interrogatory responses. Hydro One submits that the information requested by OEB staff contains third party information belonging to Hydro One that includes confidential customer information. The information provided in these interrogatory responses should only be accessible to intervenors in accordance with the requirements of the OEB Practice Direction on Confidential Filings.

Hydro One is prepared to provide a copy of these confidential filings to intervenors who sign a Declaration and Undertaking form in accordance with the OEB’s Practice Direction.

Sincerely,

ORIGINAL SIGNED BY SUSAN FRANK

Susan Frank

c. EB-2008-0272 Intervenors (cover letter only)

1                                    **Ontario Energy Board (Board Staff) INTERROGATORY #63 List 1**

2  
3                                    **Interrogatory**

4  
5                                    **Issue 4.1**

6                                    **Are the proposed 2009 and 2010 Sustaining and Development and Operations**  
7                                    **capital expenditures appropriate, including consideration of factors such as**  
8                                    **system reliability and asset condition?**

9  
10                                   **Reference:**

11                                   ExhD2/Tab2/Sched3/Invest.Summary/Ref.#D23, #D24, #D25, #D26, #D27,  
12                                   #D28, and #D29

13                                   **Preamble:**

14                                   Hydro One is seeking approval in this hearing for the seven “Load Customer  
15                                   Connection” projects whose in-service dates are within the two test years  
16                                   2009/2010.

17                                   **Request:**

18                                   Please provide for each project a copy of the spread sheet depicting the economic  
19                                   evaluations, showing all assumptions including the discount rate..etc, pursuant to  
20                                   the requirements of the Transmission System Code (Section 6.3). Where for any  
21                                   project, more than a single customer is contributing capital, please provide the  
22                                   details of the study for each customer.

23  
24  
25                                   **Response**

26  
27                                   Hydro One has received appropriate customer consent to provide the requested economic  
28                                   evaluations for these projects scheduled for in-service within the test years. This  
29                                   information is filed in confidence with the Board and will be made available to  
30                                   intervenors that sign a Declaration and Undertaking form in accordance with the OEB  
31                                   Practice Direction on Confidential Filings.

12                                   Preamble:

13                                   Hydro One is seeking guidance in this hearing for the five “Load Customer  
14                                   Connection” projects whose in-service dates are beyond the two test years  
15                                   2009/2010.

16                                   Request:

17                                   Please provide for each project a copy of the spread sheet depicting the economic  
18                                   evaluations, showing all assumptions including the discount rate ...etc, pursuant to  
19                                   the requirements of the Transmission System Code (Section 6.3). Where for any  
20                                   project, more than a single customer is contributing capital, please provide the  
21                                   details of the study for each customer.

22  
23  
24                                   **Response**

25  
26                                   Hydro One has received appropriate customer consent to provide the requested economic  
27                                   evaluations for these projects, which are at a preliminary planning stage and scheduled  
28                                   for in-service beyond the test years. This information is filed in confidence with the  
29                                   Board and will be made available to intervenors that sign a Declaration and Undertaking  
30                                   form in accordance with the OEB Practice Direction on Confidential Filings.
