VECC Interrogatory #2

Interrogatory

Reference:
Exhibit A2-02-01 Attachment 1, p.38

a) Are any of OPG's regulated assets subject to federal or provincial carbon-related regulations? If yes please describe the materiality of any potential financial impact on these assets.

Response

a) OPG's regulated assets are not currently subject to federal or provincial carbon-related regulations. However, OPG is affected by the federal Fuel Charge provided for under the Greenhouse Gas Pollution Pricing Act (the "GGPPA"). The Fuel Charge under the GGPPA applies to fuel suppliers who pass this charge through to the end user of the fuel (i.e., OPG).
