LETTER OF COMMENT

Comments:

The public at large has been impacted drastically over the last 5 years and it is time that all these increases in every sector stop with all these increases. People are struggling, people are losing their homes due to high interest rates, inflation, taxation etc... Our hard work and taxes have been thrown away to other countries but where is the support for the Canadians that produced those hard earned tax dollars? Enough is enough. Delivery charges etc are higher than the actual usage. No wonder people are leaving this country by the thousands and they will continue to leave if this continues on any further.
