Subject: Opposition to Alectra Utilities' Proposed Rate Increase (EB-2025-0252)

Dear Ontario Energy Board,

I am a residential customer of Alectra Utilities in the [redacted], residing in [redacted]. I am writing to express my firm opposition to the proposed increase in electricity distribution rates effective January 1, 2027.

Even though the proposed increase of approximately $2 per month may appear modest, this change adds to the ongoing financial pressure on households already struggling with high living costs, mortgage rates, and inflation. Every increase, no matter how small, compounds over time and further burdens families and tenants.

I urge the Ontario Energy Board to reject this application or, at minimum, freeze any rate increases until clear and verifiable improvements in service reliability and efficiency can be demonstrated.

Electricity is an essential service, not a luxury. Ratepayers should not be asked to bear additional costs when many are already facing affordability challenges.

Sincerely,
Limin
[City: [redacted]]

I also own rental properties in [redacted], which are also served by Alectra Utilities.
