Hello,
According to Alectra Inc.'s 2024 consolidated financial statement and report from Dec. 31, 2024, the net income (after taxes) of the company was $146 Million CAD.
Obviously, with that amount of income even after all the aledged expenses they had, there's absolutely zero need to raise prices and burden citizens. The sole reason is corporate greed and taking advantage of the hard working citizens.
Note, even if Alectra is instructed to give back 40$ for each and every customer of the 1 Million customers they have, they will still have a profit of $106 Million CAD!
Alectra does not need the money at all, they have more than enough.
I ask you to protect the citizens from Alectra's greed and "adjustment" technicalities, and simply instruct them to give back to the customers what they took - instead of taking more.
To emphasize, a company with $146,000,000 net income does not "need" to raise prices. They will do just fine without this proposed raise.
I expect you to look out for the working people that do not have $146 Million dollars lying around in their chequings account like Alectra has.
Sincerely,
Guy
