-- Name --
MATTHEW SPENCER

-- Do you reside in the impacted service area? -- Yes

-- Comments --
Charges for electricity are already beyond what they should be with delivery rates to begin with.
Power is and essential service and people should not be penalized as it is the cleanest form of fuel used by our county. If anything electricity should be cheaper to encourage people to use this form of energy.
People are going through hard times and should not have to chose between freezing or being able to afford another increased expense.

-- Was AI used for the letter of comment? -- No
