-- Name --
Jashbir Singh Banwait

-- Do you reside in the impacted service area? -- Yes

-- Comments --
While all other cities are getting cut in the distribution rate, and Brampton with power station is their area, and yet they are increasing the distribution rate. Since the power is distributed to the closest area, the lost due to resistance and other leak if low, we should be getting the reduction in the rate as apposed to increase. It looks like Brampton is a place to target as it has most ethnic minority and has one of the highest property tax, Auto and home insurance premium. Residence of Brampton are silently taking on additional job to make the ends meet while giving opportunity for companies to increase their atrocities by increasing burden on them. Please give us reduction in rate, definitely NOT an increase in rate. Thanks.
