UNDERTAKING JT1.26

Undertaking

TO PROVIDE THE SPECIFIC RANKINGS.

Response

OPG's understanding of this undertaking is to provide the 2019 total generating cost per megawatt-hour ("TGC/MWh") ranking for Darlington based only on the normalization for refurbishment.

Darlington's 2019 TGC/MWh performance normalized for refurbishment only was $54.18/MWh, which ranks 49 out of 62 plants in the peer group (Ex. L-F2-01-SEC-123, Attachment 1).
