UNDERTAKING JT1.16

Undertaking

TO CONFIRM THE NUMBER OF PEERS IN THE MEDIAN.

Response

There are 58 peers in the peer group, including Pickering and Darlington. Chart 1 below provides the 2019 1-Year Online Deficient Critical (DC) Backlog for the entire peer group. As shown in Chart 1, best quartile and median are zero work orders/unit.

OPG has successfully reduced the DC backlog further in 2020, with Pickering and Darlington reducing to one work order/unit as shown in Ex. L-F2-01-Staff-196, Chart 1 and Chart 2.
