NOTICE OF APPLICATION AND HEARING

YELLOW FALLS POWER LIMITED PARTNERSHIP

APPLICATION FOR LEAVE TO CONSTRUCT

A TRANSMISSION LINE CONNECTING WATERPOWER PROJECT

TO THE TRANSMISSION SYSTEM

Yellow Falls Power Limited Partnership (the “Applicant” or “YFP”) has filed an application with the Ontario Energy Board (the “Board”) dated April 27, 2009 under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. The Applicant has applied for an order of the Board granting leave to construct transmission facilities connecting a 16 megawatt (“MW”) run-of-the river waterpower project located at Yellow Falls to the transmission system owned by Hydro One Network Inc. (“Hydro One”).

The proposed transmission facilities consist of 25 kilometers of 115 kilovolt (“kV”) overhead transmission line, a customer transformer station stepping up voltage from 13.8 kV to 115 kV, and a customer switching station at the point of interconnection with Hydro One’s transmission system.

The route of the proposed 25 km, 115 kV transmission line starts at the customer transformer station following a new access road and following in a northwesterly direction to the existing Red Pine Road and to Highway 11, ending at Hydro One’s H9K circuit, located between Mallette Craft Junction and Fauquir Junction.

The Applicant has released the Final Environmental Assessment Report for the Project in February, 2009, which is filed in support of this application.

According to the application, the proposed facilities will be constructed and paid for by the Applicant, and therefore, there will be no rate impacts on Ontario’s electricity consumers.

A map showing the location of the proposed facilities is included in this Notice.

The Applicant advised that the proposed facilities will be located entirely on Crown land, and that the Applicant will require land use permits from the Ministry of Natural Resources under the Public Lands Act.

The Board has assigned File No. EB-2009-0120 to this application.

Copies of the application and the pre-filed evidence in support of the application will be available for public inspection at the Board's offices, at the Applicant's head office (see addresses below), and on the Applicant's website at www.yellowfallshydro.com.
