2025-0163	Electricity – Rates	Granted

Issues:

Pollution Probe represents a consumer and policy interest related to Lakefront Utilities 2027 Cost of Service application. The application includes the proposed investments to meet Lakefront Utilities' energy consumers' and community needs in a cost-effective manner, while ensuring its plan and execution over the rate term delivers on system and policy requirements. Lakefront Utilities specifically notes that this application represents a transition to a more sustainable operating model capable of supporting regulatory compliance, workforce stability, customer service, system reliability, and prudent modernization. The application term and

underlying Distribution System Plan (DSP) aligns with a critical period of planning and execution to ensure that utility modernization supports customer and community needs as the energy transition continues to advance. These issues relate directly to the standard issues lists included by Lakefront Utilities in its application. Pollution Probe does not propose any adjustment to the list at this time.

Policy Interests:

Please see above.

Hearings:

Pollution Probe recommends that the OEB make a decision on the format of the hearing following the interrogatory phase of the proceeding.

Evidence:

Pollution Probe does not intend to commission expert evidence at this time. However, based on the issues outlined in the application Pollution Probe may provide relevant materials to the OEB during the proceeding. No specific approvals are required to enable this approach.

Coordination with Other Intervenors:

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate.

Cost Awards:

Pollution Probe respectfully requests your acceptance of this intervenor request and confirmation that it will be eligible for its costs. Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.

Language Preference:

English.
