LETTER OF COMMENT

Comments:

To whom it may concern, I would like to file a formal complaint with the potential upcoming rate changes effective 2026 case# EB-2025-0163. I do not believe the average Canadian can withstand more price hikes as the cost of living is already becoming unbearable. The natural gas at the pumps have dropped over the last 6 months due to the Carbon Tax being removed so I do not believe natural gas being fed to our homes should increase, if anything they should decrease. I would argue your rates are already above what they should be and they should be dropped even more to allow the average Canadian to be able to afford the cost of living in today's market. Thanks for your time.
