IN THE MATTER OF the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, Schedule B, as amended;

AND IN THE MATTER OF an application by Enbridge Gas Inc. for an Order or Orders approving the balances and clearance of certain non-commodity 2024 Demand Side Management Deferral and Variance Accounts into rates, within the next available QRAM.

APPLICATION

1. Enbridge Gas Inc. (Enbridge Gas or the Company), was formed by the amalgamation of Enbridge Gas Distribution Inc. (EGD) and Union Gas Limited (Union), on January 1, 2019, pursuant to the *Ontario Business Corporations* Act, R.S.O. 1990, c. B. 16. Enbridge Gas carries on the business of selling, distributing, transmitting and storing natural gas in Ontario within the meaning of the *Ontario Energy Board Act*, 1998 (the Act).

2. Notwithstanding the amalgamation, Enbridge Gas continued to operate its DSM portfolio of programs by the legacy rate zones of the two Utilities pursuant to applicable OEB approvals for same for subsequent years up to and including 2021.

3. In May 2021 Enbridge Gas filed an application with the OEB seeking approval of a policy framework and six-year natural gas conservation plan to be in place from 2022 to 2027[1]. By a Decision and Order dated August 26, 2021, the OEB approved the continuation of the OEB-approved 2015-2021 natural gas conservation plans for 2022. Enbridge Gas then refiled an application on September 29, 2021 seeking approval of a five-year plan to be in place from 2023 to 2027. In its Decision and

[1] EB-2021-0002.

Order dated November 15, 2022, the OEB approved a 3 year term plan for the years 2023-2025. The 2024 DSM program year is the second year of this three year term.

4. Enbridge Gas hereby applies to the OEB pursuant to Section 36 of the Act and pursuant to the MAADs decision approving the amalgamation of Enbridge Gas Distribution Inc. and Union Gas Limited for such final or interim Orders and Accounting Orders as necessary approving the final balances in the 2024 Demand Side Management (DSM) Deferral and Variance Accounts (set out in Table 1– excluding interest) and the disposition of these balances within the next available Quarterly Rate Adjustment Mechanism (QRAM) application following the OEB's approval.[2] The 2024 DSMVA balance for which approval is sought in this application reflects the $60 million interim disposition previously approved by the OEB in EB-2024-0193 in respect of costs associated with the 2024 Home Efficiency Rebate Plus offering. Enbridge Gas therefore seeks final approval of the 2024 DSMVA balance, including the remaining costs associated with the offering, net of the amount previously disposed of on an interim basis. Enbridge Gas proposes that disposition occur as early as April 1, 2027, and further proposes that the disposition amounts applicable to Rate 1, Rate 01 and Rate M1 customers be recovered evenly over three months to smooth customer bill impacts.

[2] Please see Exhibit B, Tab 3, Schedule 1 for details of proposed allocation and disposition methodologies, timing of disposition and derivation of unit rates.

2024 DSM Deferral and Variance Account Balances

2	DSM Incentive Deferral Account	$12,731,622

4	Total Balance	$72,919,922

5. Enbridge Gas further applies to the OEB for all necessary Orders and Directions concerning pre-hearing and hearing procedures necessary for the determination of this application.

6. Enbridge Gas requests that the OEB's review of this application proceed by means of a written hearing in English.

7. This application is supported by written evidence. This evidence may be amended, from time to time, as required by the OEB or as circumstances may require.
