Mr. Peter Thompson
Counsel for CME
Borden Ladner Gervais LLP
World Exchange Plaza
100 Queen Street, Suite 1100
Ottawa ON K1P 1J9

Dear Mr. Thompson:

**Re: Hydro One Networks Inc EB-2008-0272
Supplementary Interrogatories Responses**

The Board is in receipt of your letter of October 8, 2009, Hydro One's response of October 9, 2009, your reply of October 9, 2009, and letters from Energy Probe and School Energy Coalition, dated October 13, 2009 all in regard to your request that the Board direct Hydro One to respond to certain interrogatories. The interrogatories seek to determine the current and projected spending for 2009 and 2010 for the expressed purpose of ascertaining whether the total capital spending amounts for 2009 and 2010 and the related total revenue requirement are appropriate.

The May 28, 2009 decision provided an opportunity for Hydro One to file supplemental evidence on the named projects so that the Board could potentially hear additions to the existing evidentiary record. The expectation being that the new evidence would respond to the Board's finding that the originally filed evidence pertaining to these projects was insufficient. The nature of insufficiency of the evidence is detailed in the decision. All other aspects of the capital budget have been addressed already in the decision.

In recognition of the strong indications of the requirements to commence activities and to allow for the outcome of the Board's process to be reflected in the 2010 rates the Board stated that it would ensure a streamlined process to hear any new evidence on these projects. The purpose of the process is to receive and consider supplemental evidence on the specific projects only; other matters already addressed in the decision will not be revisited.

The Board will not require Hydro One to update its capital spending to date or to provide updated capital spending projections.

Yours truly,
