LETTER OF COMMENT

Comments:
I do not approve of this cost increase. Ontarians and Londoners are already stretched thin financially and it is inhumane and benign to ask us to pay more when groceries, taxes, gas, and the general cost of living is the highest its ever been. I have not received a pay increase in over 5 years, with the provincial government cruelly refusing to bargain with my union to negotiate a fair wage, so I am barely able to afford life as is. I also see that the ban on turning off hydro for lack of payment during the winter months is now banned. That is death by 1000 cuts for struggling ontarians that are working full time, often multiple jobs, just to get by. There is no reason for this increase. How much is the top earnings at London Hydro making? It is not reasonable that our bills are incredibly high, with most of the charges being the service fee of just giving us the hydro. We dont get to choose which hydro company we get. We are stuck with this company, and they get the monopoly of charging us whatever they want. Its insane. I do not trust that London Hydro is not going to charge their consumers more if a Data Centre gets built and starts to charge residents for all the energy it uses. We are not going to survive if every business decides it wants more from us. We dont have more to GIVE.
