Re: Board File No. EB-2026-0043 – 2027 Incentive Regulation Mechanism Application
Greater Sudbury Hydro Inc. – Licence No. ED-2002-0559
Response to OEB Preliminary Review Letter and Revised Application

Dear Mr. Murray:

Further to the OEB's preliminary review letter, please find enclosed Greater Sudbury Hydro Inc.'s revised application for electricity distribution rates effective May 1, 2027.

The revised application provides additional evidence explaining the changes to the Moonlight MS18 Substation Rebuild Project cost and GSHI's broader capital program since its 2025 Cost of Service proceeding. It also clarifies how those changes are reflected in the ACM model and confirms that the eligible incremental capital, associated revenue requirement and proposed ACM rate riders remain unchanged.

For ease of review, GSHI is resubmitting the complete application and supporting models, which replace the previously filed versions. The revised application is being filed through RESS in PDF format, with supporting models in Excel format.

Should you have any questions or require further information, please contact the undersigned.

Yours truly,

Tiija Luttrell
