DELIVERED BY EMAIL AND MAIL

Mr. Ian Blue
Cassels Brock
Suite 2100
40 King Street West
Toronto, ON M5H 3C2

Dear Mr. Blue:

Re: Toronto Hydro Streetlighting Applications
OEB File Nos.: EB-2009-0180, EB-2009-0181, EB-2009-0182, EB-2009-0183

We have received comments back from Toronto Hydro regarding your letter dated November 9, 2009. Your letter and attachments raise the following preliminary issues that require clarification:

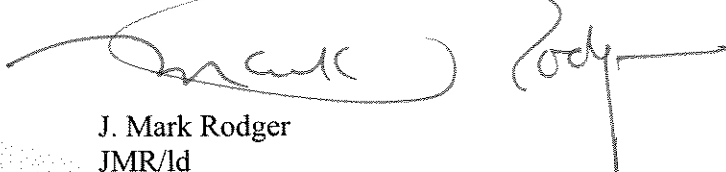

1. You indicate that a Table was attached to your letter entitled "Derivation of worst case 2010 street lighting distribution rates." Two Tables were attached to your correspondence but neither Table is named as you indicated in your letter. Is there a Table missing from your November 9th correspondence or does it apply to either of the two Tables which did accompany your letter? Please advise.
2. Toronto Hydro does not understand, nor is it appropriate for us to speculate, upon what assumptions Elenchus Research Associates relied in creating the three hypothetical scenarios presented. Accordingly, Toronto Hydro is unable to respond to the material you sent to us (or the numbers contained therein) in any meaningful way.

Toronto Hydro's evidence on the anticipated revenue requirement impacts from the proposed transactions is a net increase in revenue requirement, to the Streetlighting and USL classes

only, of \$350,000. Details on how this number was derived are shown as part of the response to SEC IR #2.

Yours truly,

BORDEN LADNER GERVAIS LLP

A handwritten signature in black ink, appearing to read "J. Mark Rodger", is written over the printed name. The signature is fluid and cursive, with a long horizontal stroke extending to the right.
