Our File: EB20250297

Attn: Ritchie Murray, Registrar

Dear Mr. Murray:

Re: EB-2025-0297 – Ontario Power Generation 2027-2031 – Impact Statement Response

We are counsel to the School Energy Coalition ("SEC"). SEC writes on behalf of all intervenors who are signatories to the Settlement Proposal (the "Intervenors"), in response to the Applicants' letter dated November 10, 2026, in which they requested that the Parties return to the Settlement Conference to discuss the implications of the Impact Statement.

The Intervenors met earlier today to discuss the request and agree to the Applicants' proposal to return to the Settlement Conference. However, this agreement is expressly without prejudice to the Intervenors' expectation that there will be formal discovery on the Impact Statement and its implications, if, as a result of the renewed settlement discussions, there is no longer a settlement, in whole or in part, on the issues affected by the Impact Statement.

The Intervenors also canvassed their availability to return to the Settlement Conference. Due to the professional and personal obligations of the parties' representatives, including a number of OEB matters already scheduled, the earliest available date is December 8. The undersigned has spoken to the Applicants, and they have confirmed they are available on that date.

Yours very truly,
Shepherd Rubenstein P.C.

Mark Rubenstein
