NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

Fort Frances Power Corporation

The Ontario Energy Board (the “Board”) received an application on December 3, 2009, under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Fort Frances Power Corporation (“Fort Frances Power”) charges for electricity distribution, to be effective May 1, 2010. The Board has assigned the application file number EB-2009-0264. The Board’s decision on this application may have an effect on all of Fort Frances Power’s customers. The application was filed under the Board’s guidelines for 2nd Generation Incentive Regulation, which provides for a mechanistic and formulaic adjustment to rates between cost of service applications.

Any change to the rates that Fort Frances Power charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers’ electricity bills and vary depending on the amount of electricity consumed.

Fort Frances Power indicates that if the application is approved as filed, a residential customer consuming 800 kWh per month would experience an approximate 1.6% increase in delivery charges. This is a \$0.42 per month increase on the total bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate 1.4% increase in delivery charges. This is a \$0.81 per month increase on the total bill.
