I am deeply sickened by Hydro One's parasitic initiative to increase their profits on the backs of Canadians who CANNOT AFFORD IT. We work hard, day in and day out, for a decent pay, and yet - We make just enough money to pay the bills as it is. Everyone I know… Spinning our wheels on debts when the same money used to work wonders for us in the past. I believe that Hydro One is aware of this, especially with the advent of AI, yet they chose to apply for the increased rate, nonetheless. Absolutely sick.
