LETTER OF COMMENT

Comments:
Letter of Comment — OEB File EB-2026-0164 Hydro One Networks Inc. and Hydro One Sault Ste. Marie LP — Joint Rate Application, 2028–2032 To the Registrar, Ontario Energy Board, I am writing as a Hydro One residential customer in rural South Glengarry, Ontario, to say I am opposed to the proposed increase in delivery charges. My hydro bill is already $400 to $500 a month, and about 40 to 50 percent of that is the delivery charge alone. Asking us to pay even more for delivery, when it already makes up almost half the bill, is not reasonable. I am a single parent raising two teenagers in a single-family home. I have no livestock and nothing else using extra electricity, yet a similar family in the city pays about a fifth of what I pay. I am asking the Board not to approve this increase as filed, and to protect rural residential customers from paying even more just to have electricity delivered to their homes. Thank you for considering my comment. Suzanne Lafleur
