

In response to the board's e-mail I think that dismissing my concerns is disingenuous and would ask for time to seek legal council, to have me interpret the Act is unfair, I would like question whether or not Plateau is in fact entitled to have this hearing under the Act, surely an independent legal opinion would be in order. I think that the advertisement for this hearing mentions adverse impacts, surely having to move is an adverse impact. If I am required to pay for legal council then surely I am entitled status at the hearing.
