Dear Ms. Walli;

RE: EB-2010-0125 – Brant County Power Inc. 2011 Cost of Service Electricity Distribution Rate Application – Brantford Power Inc. Request for Intervenor Status

Brantford Power Inc. (“BPI”) is the licensed electricity distributor serving the City of Brantford. Brant County Power Inc. (“BCPI”) is a host distributor in relation to BPI, at one delivery point. BPI’s average monthly demand for electricity received through BCPI at that point is approximately 90 kW. To date, BCPI has billed BPI as a General Service > 50 kW customer.

BPI is in receipt of a copy of the Notice of Application in respect of BCPI’s 2011 Cost of Service Electricity Distribution Rate Application (the “Application”). In its Application, BCPI has moved BPI into the General Service < 50 kW class.

The Board will recall that BPI and BCPI were involved in a lengthy proceeding (EB-2009-0063) involving a review of the Board’s Decision in BPI’s 2008 cost of service distribution rate application. One outcome of that proceeding was that BPI was directed to establish an embedded distributor rate class that would be applicable to BCPI. Not only has BCPI not established a similar embedded distributor rate class that would be applicable to BPI, but it proposes to move BPI into an inapplicable rate class. BPI is concerned about the impact of the Application on BPI’s customers, who will ultimately be responsible for paying those rates.

Please accept this letter as BPI's request for intervenor status in this proceeding. BPI expects that its participation will be limited, and BPI will not be seeking an award of costs. Please ensure that copies of all material and correspondence in this matter are delivered to:
