Dear Ms. Walli:

**Re: Pollution Probe – Questions for Technical Conference
EB-2010-0142 – Toronto Hydro – 2011 Rates**

Pursuant to Procedural Order No. 1, please find enclosed Pollution Probe's questions to Toronto Hydro for the technical conference in this matter.

Yours truly,

Basil Alexander

BA/ba

Encl.

cc: Applicant and Intervenors per Appendix A to Procedural Order No. 6

EB-2010-0142

Pollution Probe's Technical Conference Questions for Toronto Hydro

January 18, 2011

1. Ref: Exhibit R1, Tab 8, Schedule 4, Appendix A (as revised Jan. 13, 2011)
Exhibit R1, Tab 8, Schedule 5, Appendix A (as revised Jan. 13, 2011)
Exhibit O1, Tab 1, Schedule 1

As part of its revised response to Pollution Probe Interrogatory Nos. 4 & 5, Toronto Hydro provided bill impact analyses for a representative sample of customers in certain scenarios. However, the original bill impact analyses provided by Toronto Hydro as part of Exhibit O1 is not for the same representative sample of customers.

Please provide bill impact analyses for Toronto Hydro's proposal (i.e. practically update Exhibit O1) for the same representative sample of customers used in responding to Pollution Probe Interrogatory Nos. 4 & 5.

2. Ref: Exhibit R1, Tab 8, Schedule 2

According to Toronto Hydro's response for parts (a) and (b) of this interrogatory, certain issues related to the RSVA Power account are currently under review, which did not allow a response as of December 6, 2010. However, Pollution Probe needs to be able to review and analyze this information adequately and as soon as possible before the settlement conference.

Please provide any updated information or responses for this interrogatory. If there is no updated information or responses, please advise when Pollution Probe may expect the updated information or responses, which should be as soon as possible.
