Dear Ms. Walli:

**Re: Developing Guidance for the Implementation of Smart Grid in Ontario
Board File EB-2011-0004**

In response to the Ontario Energy Board's (the "OEB's") letter dated January 13, 2011, seeking expressions of interest from those who would like to participate in the OEB's proposed Smart Grid Working Group (the "SGWG") Enersource Hydro Mississauga Inc. ("Enersource") nominates Raymond Rauber, Vice-President, Engineering and Operations, to represent the electrical utility industry.

Mr. Rauber is responsible for the leadership and direction of over 170 employees that design, build, maintain and operate the electricity distribution network within the City of Mississauga.

With 25 years of utility experience, Mr. Rauber began his career at Hydro Mississauga in 1984 and has held positions of increasing responsibility such as Project Manager - Overhead Construction, Street Lighting, Roads, and VP - Construction & Maintenance, before being appointed to his current position.

Mr. Rauber holds a Bachelor of Applied Science degree in Electrical Engineering with an option in Management Science from the University of Waterloo, and also holds the designation of P. Eng.

Mr. Rauber has participated on a number of committees. These have included the Utilities Engineering Coordinating Committee, Canadian Standards Association Cable and Transformer Specification committees, Vice Chair of the Central and Upper Canada District Electricity Distributors Association committee, and member of the OEB Performance Based Regulation II Service Quality Indicator Working Group - Reliability Subgroup (PBR II – SQI subgroup on Reliability). Mr. Rauber has been leading Enersource into new technology to enhance the intelligence of the electrical grid.

Thank you in advance for your consideration. If you have any questions please do not hesitate to contact me.

Sincerely,

(Original signed by)

Gia M. DeJulio
Director, Regulatory Affairs

cc. Dan Pastoric, Executive Vice-President and Chief Operating Officer
Raymond Rauber, Vice-President, Engineering and Operations
