JAN 21 2011

ONTARIO ENERGY BOARD  
 OFFICE OF THE BOARD SECRETARY

**RE: EB-2011-0004 Nomination**

Dear Ms. Walli,

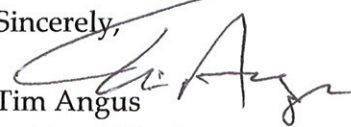

I wish to nominate **Mark Kerbel** as a participant for the Smart Grid Working Group.

Mr. Kerbel's interest lies in Smart Grid Controls for the commercial and industrial building sector, with the following relevant experience:

- Deployments of a variety of building control automation technologies and their associated energy efficiency Measurement & Verification techniques
- Utility energy efficiency (EE) and demand response (DR) programs
- Insight into leading-edge EE/DR methodologies and programs in the U.S., particularly in California (where he represents our organization in a number of research and pilot programs, and participated in development of a number of these programs)
- Insight into Electric Vehicle Charging load management issues as they relate to facility operators as well as utilities
- Interaction with facility owners/operators concerning energy budgets, and educating them with respect to energy efficiency policies and practices
- Ontario Smart Grid company business development and job creation
- Design, Development, and Deployment of complex software systems in the utility sector (particularly in Ontario's retail electricity market)
- Past Participant in the OEB Smart Meter Working Group
- Past Chairperson of the OEB EBT Standards Working Group

If you have any questions concerning this nomination, please feel free to contact me ([Tim.Angus@REGENEnergy.com](mailto:Tim.Angus@REGENEnergy.com), 613.293.2470). Mr. Kerbel can be reached via email at [Mark.Kerbel@REGENEnergy.com](mailto:Mark.Kerbel@REGENEnergy.com), or 416.934.1040 x227.

Sincerely,

  
 Tim Angus  
 CEO, REGEN Energy
