

2 HORIZON UTILITIES CORPORATION (“HORIZON UTILITIES”)
3 SUBMISSION OF ORAL HEARING UNDERTAKING

4 DELIVERED: April 12, 2011

5
6 NO. J3.1: TO RECONCILE THE FIGURE IN 44(C), A 2011 FORECAST FOR LARGE
7 USE GIGAWATT-HOURS, OF 1,458.8 GIGAWATT-HOURS VERSUS THE ANSWER
8 AT VECC 38(D) OF 1,515.6 GIGAWATT-HOURS

9
10 **Response:**

11 Horizon Utilities’ response to VECC Interrogatory 44 c) on the Revised Evidence shows
12 kWh consumption for the Large Use customer class including wholesale market
13 participants (“WMP”) as 1,458.9 GWh. There was an incorrect link in the source for this
14 number and it should read 1,546.9 GWh.

15 The 1,515.6 GWh noted in Horizon Utilities’ response to VECC Interrogatory 38 d) on
16 the Revised Evidence is based on Exhibit 3, Tab 2, Schedule 1, Table 3-6 Billed Energy
17 and Number of Customers/Connections by Rate Class. A typographical error was made
18 and this number should read 1,546.9 GWh.
