**Ms. Kirsten Walli, Board Secretary
Ontario Energy Board**

VIA EMAIL

Email: boardsec@ontarioenergyboard.ca

Dear Ms. Walli:

**Subject: EB-2011-0242 Enbridge Renewable Natural Gas Application
EB-2011-0283 Union Gas Renewable Natural Gas Application
GHI Late Intervention Request**

Guelph Hydro Inc. (GHI) hereby requests late intervenor status in the above hearing. GHI is the renewable energy generation division of Guelph Hydro, a community owned local distribution company. GHI's role in the company is to work with the City of Guelph to assist in reaching their rigid environmental targets as part of their Community Energy Initiative in the role of energy manager.

In our energy management role we have worked to provide varied options of renewable and clean energy generation within Guelph. One such project is a biogas plant using anaerobic digestion, of which the Ontario Ministry of Agriculture and Rural Affairs have been an advocate. The outcome of the proceedings including the pricing, terms and conditions of an RNG offering will impact GHI and its projects for the City of Guelph. GHI would like to be involved as an intervenor in the above proceedings and will not be seeking a cost award.

We request that documents be sent to:

Guelph Hydro Inc.
c/o Ron Collins
395 Southgate Drive.
Guelph, ON N1G 4Y1

Sincerely,
GUELPH HYDRO INC.

A handwritten signature in blue ink, appearing to be "Ron Collins", written over a horizontal line.

Ron Collins
Vice President Business Development & Partnerships
