Dear Ms. Walli:

**Re: EB-2012-0206  
Union Gas Limited – Short Term Storage Margin**

We are counsel to Union Gas Limited (“Union”) in the above-noted matter.

We are writing further to Procedural Order No. 1 to vary the timing of Union’s submissions.

The Procedural Order advises that issues have been raised with respect to the calculation of short term margin sharing that warrant the Board’s review pursuant to a motion under rule 43.01. The specific issues the Board wishes parties to address in their submissions are not specified.

Procedural Order No. 1 contemplates that all parties will file their submissions by Friday, May 18. This timing does not afford Union an opportunity to consider the submissions of parties opposite and reply to those submissions. In order to meaningfully assist the Board and focus its own submissions, Union respectfully asks that the timing be varied to allow Union to reply by the following Wednesday, May 23.

Yours truly,

Crawford Smith
