Dear Ms. Walli:

**EB-2011-0140 – East-West Tie Line – Hydro One Networks Inc. Objection to Declaration and Undertakings**

On June 14, 2012, the Board issued a Phase 1 Partial Decision and Order allowing Hydro One Networks Inc. ("HONI") to file four reports (the "Consultant Reports") in accordance with the Board's *Practice Direction on Confidential Filings*.

The Board subsequently sent a letter to HONI, dated July 11, 2012, stating that a number of declaration and undertakings had been received from transmitters and other parties wishing to access all of the documents that HONI filed pursuant to the Board's Order regarding confidential filing.

HONI objects to having the unredacted versions of the Consultant Reports made available to entities which are not registered transmitters, for the reason that non-transmitters have no need to see the commercially sensitive information that has been redacted. HONI therefore submits that non-transmitters who provide the Board with declarations and undertakings regarding confidentiality should not be able to view unredacted versions of the Consultant Reports.

Yours very truly,
