2013 Cost of Service Rate Application**

Peterborough Distribution Incorporated ("PDI") is scheduled to file a Cost of Service Application for 2013 Electricity Distribution Rates, and remains committed to preparing a rate application in line with the most recent Board Filing Requirements.

In August PDI advised the Board it was delayed in filing and would endeavour to submit its application by October 31, 2012. PDI was unable to file in October but will continue to work diligently to file a complete application as soon as possible.

Yours truly,
