IN THE MATTER OF the *Ontario Energy Board Act*, 1998, S.O. 1998, c.15 (Schedule B);

AND IN THE MATTER OF an application by Veridian Connections Inc. for an order or orders approving or fixing just and reasonable distribution rates related to Smart Meter deployment, to be effective November 1, 2012.

**FINAL RATE ORDER
November 15, 2012**

Introduction

Veridian Connections Inc. (“Veridian”), a licensed distributor of electricity, filed an application (the “Application”) with the Ontario Energy Board (the “Board”) on May 31, 2012 under section 78 of the *Ontario Energy Board Act*, 1998, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that Veridian charges for electricity distribution, to be effective November 1, 2012.

Veridian sought Board approval for the disposition and recovery of costs related to smart meter deployment, offset by Smart Meter Funding Adder revenues collected from January 1, 2009 to December 31, 2011. Veridian requested approval of proposed Smart Meter Disposition Riders and Smart Meter Incremental Revenue Requirement Rate Riders effective November 1, 2012.

In its Decision and Order on the Application issued on October 25, 2012, the Board ordered Veridian to file with the Board a draft Rate Order (“DRO”) attaching a proposed Tariff of Rates and Charges reflecting the Board’s findings, within 6 days of the date of the Decision and Order. The DRO was also to include customer rate impacts and detailed supporting information showing the calculation of the final rates.

On October 29, 2012, Veridian filed a DRO, including revised models and a proposed Tariff of Rates and Charges.

On November 5, 2012 Board staff filed comments on the DRO, agreeing that Veridian had appropriately reflected the Board’s findings in its DRO and proposed Tariff of Rates and Charges. Board staff noted a typographical error in the Board approved Rate Rider for Deferral/Variance Account Disposition (2012) and Rate Rider for Global Adjustment Sub-Account Disposition (2012) for all applicable rate classes in both Veridian and Gravenhurst service areas. The error was that the sunset date should be April 30, 2014 not April 30, 2013.

No comments on the DRO were filed by the Vulnerable Energy Consumers Coalition.

Veridian did not file a response to Board staff comments.

Under Rule 43.02 of the Board’s *Rules of Practice and Procedure*, the Board may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions¹. The Board agrees with Board staff’s comment that the correct sunset dates for the approved Rate Rider for Deferral/Variance Account Disposition (2012) and Rate Rider for Global Adjustment Sub-Account Disposition (2012) for all applicable rate classes in both Veridian and Gravenhurst service areas are April 30, 2014. The Tariff of Rates and Charges appended to this Rate Order reflects those corrections.

The Board has reviewed the information provided by Veridian and the proposed Tariff of Rates and Charges and is satisfied that the proposed Tariff of Rates and Charges filed as part of the DRO accurately reflects the Board’s Decision.

¹ Ontario Energy Board, *Rules of Practice and Procedure*, revised January 9, 2012, page 29

THE BOARD ORDERS THAT:

1. The Tariff of Rates and Charges set out in Appendix A of this Order will become final effective November 1, 2012 and will apply to electricity consumed or estimated to have been consumed on and after November 1, 2012. Veridian shall notify its customers of the rate changes no later than with the first bill reflecting the new rates.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

In general, all services will be metered. However, certain types of electrical loads are not practical to meter, or the cost of metering represents an inordinate expense to both the Customer and Veridian. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. These situations can be managed through a controlled connection and a pre-defined basis for estimating consumption. Further servicing details are available in the distributor's Conditions of Service.
