Dear Madam Secretary:

**RE: Review of Framework Governing the Participation of Intervenors in Board Proceedings –
 Consultation and Stakeholder Conference – EB-2013-0301
 GAPLO/LCSA – Intent to Participate and Request for Cost Eligibility**

I am counsel to the Gas Pipeline Landowners of Ontario (GAPLO) and to the Lambton County Storage Association (LSCA). In response to the Board's letter dated August 22, 2013, I am writing to register the intent of GAPLO and LSCA to participate jointly in the above noted consultation. GAPLO and LCSA are both voluntary organizations of landowners directly affected by projects and facilities within the Board's jurisdiction. Each organization has intervened in multiple hearing processes before the Board in order to protect the interests of landowners facing project applications. The questions to be addressed in the Board's current consultation process are of great interest to GAPLO and LSCA and their respective members.

GAPLO and LCSA request a determination of eligibility for a cost award in this consultation process. With reference to Section 3.03 of the Board's *Practice Direction on Costs Awards*, GAPLO and LCSA (and their respective members) represent a public interest relevant to the Board's mandate. Arguably, they also represent persons with an interest in land that is affected by the process. GAPLO and LCSA are voluntary organizations funded entirely through contributions by their landowner members; they have no other source of funding.

GAPLO and LCSA intend to retain me as their representative for the consultation process, including the submission of written comments and participation in person at the Stakeholder Conference in October. I have appeared as counsel for landowners before the Board in several proceedings. A copy of my *curriculum vitae* is enclosed.

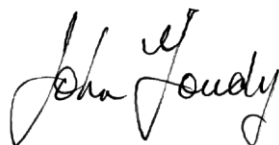

Documents filed with the Board in this proceeding should be served upon GAPLO and LCSA through my office as follows:
