

1 **UNDERTAKING J9.4**

2

3 **Undertaking**

4

5 To provide an estimate of the impact of the arbitrator awarding zero percent to The

6 Society.

7

8 **Response**

9

10 As discussed at Tr. Vol. 9, pp. 91-92, the impact of an arbitrator award for the 2013-2015

11 Society collective agreement of a zero percent economic increase would have no impact

12 on the test period revenue requirement, as the revenue requirement is already based on

13 an assumption of a zero percent economic increase over for this period for the Society-

14 represented employees.

15

16 Similarly, as noted at Tr. Vol. 9, p. 92, the assumed economic increase reflected in the

17 revenue requirement for the PWU-represented employees for the period from April 1,

18 2015 to December 31, 2015 is also zero percent.
