**Re: EB – 2011 – 0043 Regional Planning Standing Committee (RPSC)**

Dear Ms. Walli:

The CHEC Association would like to nominate Wade Morris, C.Tech., C.I.M., of Innisfil Hydro to the Regional Planning Standing Committee (RPSC). Wade, as the CHEC representative, would provide input on behalf of fourteen (14) small LDCs across the province.

Wade as Vice President of Engineering and Operations is well positioned to be an active member of the RPSC. The responsibilities associated with Wade's position are consistent with the goals and objectives of the RPSC and Wade has expressed a time commitment associated with the RPSC work.

Wade was part of the original regional planning committee and brings this experience and knowledge to the RPSC. In addition to Wade's own knowledge of distribution systems and planning, Wade will have access to thirteen other LDCs to provide further input and insight to his work on the RPSC.

Representing both Innisfil Hydro and the other Members of the CHEC Association will allow experience from various planning regions to be available to inform Wade's understanding of the issues associated with regional planning. Further the ability to represent a cross section of smaller LDCs will be beneficial to the RPSC.

We look forward to your positive response with respect to membership on Regional Planning Standing Committee.
