New Deferral Account

VECC-1

Ref: Tab 1 Manager's Summary

Preamble: The Township of Centre Wellington is converting street lights to LED technology which is expected to take place in the latter part of 2015. Centre Wellington has requested the addition of a deferral account to track the forecasted revenue to actual revenue that will occur in the Street Light Service rate class when the technology is changed to LED.

- a) Please discuss why Centre Wellington is not proposing that the variance be recovered through the LRAMVA?
- b) Please provide further details on the nature of the LED conversion initiative and the rationale for the deferral account.
- c) Please discuss if Centre Wellington is aware of other distributors that have requested a deferral account to track the variance in the Street Light class due to a change in technology to LED?
