Re: Ontario Power Generation Inc.  
Disposal of Account Balances  
Board File No. EB-2014-0370

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing regarding the above proceeding to request intervenor status.

### **AMPCO's Interest**

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of local distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In the current application Ontario Power Generation Inc. (OPG) has applied to the Ontario Energy Board to dispose of 2014 year-end balances in authorized deferral and variance accounts and thereby increase the amount it charges for the output of its nuclear generating facilities and most of its hydroelectric generating facilities.

AMPCO is intervening in order to ensure that the interests of its members are fully represented in the determination of just and reasonable payment amounts for regulated hydroelectric and nuclear generation facilities.
