North Bay Hydro Distribution Ltd. has applied to the Ontario Energy Board to decrease the amount it charges by \$3.43 each month for the typical residential customer beginning on May 1, 2015. Other customers, including businesses, may be affected as well.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider North Bay Hydro's request. We will question the company on its case for a rate change. We will also hear arguments from individuals and from groups that represent North Bay Hydro customers. At the end of this hearing, the OEB will decide what, if any, change will be allowed.

Distributors such as North Bay Hydro typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying a formula that is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
