Re: Ontario Power Generation Inc. Disposal of Account Balances

Board File No. EB-2014-0370

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing regarding the above proceeding to request intervenor status.

Summitt Energy Management Inc. ("Summitt") has interest in the Ontario Power Generation Inc. ("OPG") application to the Ontario Energy Board to dispose of 2014 year-end balances in authorized deferral and variance accounts and thereby increase the amount it charges for the output of its nuclear generating facilities and most of its hydroelectric generating facilities.

Summitt is intervening in order to ensure that the interests of its customers are fully represented in determining if payment amounts for regulated hydroelectric and nuclear generation facilities made by retail customers is just and reasonable.

Respectfully submitted

9. As indicated above, Summitt services residential and commercial customers that pay the regulated generation costs that may be awarded to OPG and any impact these costs may

have on the Global Adjustment. Summitt's customers have a substantial interest in these proceedings, including all issues that affect costs to be paid by them.
