TO Whom It May Concern;

I'm objecting to the rate increase of <sup>9</sup>3.08 cents sought by the Ontario Power Generation. As a ratepayer I feel that that my energy bills are already way too high.

Here in the northwest, we don't use the electricity generated by nuclear power plants such as Darlington. Our province's energy policy is not working. We have the highest rates in all of Canada. Why? I only wish that I had known in advance about the latest rate increase sought and received by Hydro One. I would have objected to that too.

Thank you

Tom Wassaykoosic
