RE: OEB WHOLESALER LICENCE

Please accept the enclosed application for a new Wholesaler Licence.

Dyno Nobel Nitrogen had a wholesaler licence (EW-2006-025) that expired March 21, 2011. Our site had gone through downsizing beginning in 2010. Unfortunately the licence renewal letter went to one of our Managers that is no longer in our employ due to the restructure of the company.

It was only when we received an email from the IESO requesting an updated licence that we became aware of the required OEB Wholesaler Licence.

We apologize for the omission during the period of transition.

Please contact me if there is anything else you need to complete the process.

Sincerely,

Russell Homer
Site Manager
