## LETTER OF COMMENT

### **Comments:**

The people of Ontario cannot afford anymore increases in their hydro bills, the people of rural Ontario are already being gouged to the max, we are being penalized for living in the country with unreal delivery fees. My usage is \$62 delivery etc \$85. People are losing their homes, businesses etc because they can't afford hydro. People are going without food, and other essentials because of unreal hydro bills. Big businesses are shutting down and moving to Mexico because it is too expensive to manufacture in Ontario because of Hydro. We are selling surplus hydro at a very low rate. There is no need except greed for this. Please listen to the people and no more increases

Thank you
