LETTER OF COMMENT

Comments:

Just how much do you think the middleman can continue to pay for hydro. Every time there is a problem, a request is made to the board and ultimately passed along to the middleman. Fix the mess at Hydro One before taxing us again. Wynn Govt is a joke and ultimately you continue to give her what she asks for without due consideration for the taxpayer. We cannot take any more hikes. We live in a country that needs heat in the winter time in order to survive. People in the north are going hungry and losing their homes due to the hydro bill alone. Enough is enough. Start working for the people of this Province and listen to our pleas. Hydro is a Necessity in this country and should be affordable for one and all. (More reasons for industry to move out of Province). By the way, I am a Senior and my pension for a year is what Hydro workers and office staff make in a month and my cost of living bonus was \$1.00 a month. Too bad we cant defer our hydro bills!
