

31 July 2015

Ontario Energy Board
2300 Yonge St., 27th Floor
Toronto, ON, M4P 1E4

Attn: Ms Kirsten Walli, Board Secretary

By electronic filing and e-mail

Dear Ms Walli:

Re: EB-2015-0029, EB-2015-0049 – Union and Enbridge 2015-20 Gas DSM – GEC Witness Panel

GEC has two expert witnesses in this case:

Mr. Chris Neme of Energy Futures Group has filed a report covering *inter alia*:

- The adequacy and reasonableness of the utilities' proposed savings and other targets (Topic 2);
- The adequacy and reasonableness of the utilities' proposed budgets (Topic 3);
- The reasonableness of the utilities proposed shareholder incentive structures and metrics (Topic 4, also related to Topic 2);
- The utilities' proposed approach to governance of evaluation, measurement and verification (Topic 6); and
- The adequacy and reasonableness of the utilities' proposed approaches to assessing the potential role of DSM in addressing future infrastructure capacity needs (Topic 12).

Mr. Paul Chernick of Resource Insight Inc. whose report addresses avoided costs as well as providing input to the rate impacts aspects of Mr. Neme's report.

We propose to present the witnesses as a single panel. As previously noted, Mr. Neme is unavailable before August 26th.

Sincerely,

David Poch
