Re: File EB-2015-0179

Proposed Union Gas Pipeline expansion

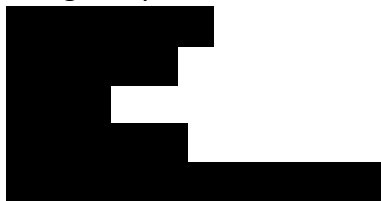

To whom it may concern :

Having received a 26% delivery price adjustment increase and a 3.6% natural gas base rate increase with the July 1, 2015 rate schedule , I am opposed to any further assessments to subsidize Union gas expansion.

Funding for these proposed expansions should come from the recipients and /or through government assistance programs .

Sincerely

Douglas Dyer
