**Re: Peterborough Distribution Inc. (PDI) 2016 IRM Rate Application EB-2015-0097**

PDI has reviewed the draft decision and rate order dated February 4, 2016.

PDI notes that there appears to be an error in the supporting rate model dated January 29, 2016. On Tab 4, the percentages to allocate the deferral variance account balances across the various rate classes were entered in column V instead of column U. As a result, the \$-34,410 balance in 1595 (2013) was missed in the calculation on Tab 5 to calculate the deferral variance account rate rider for all rate classes.

Aside from the noted error above, PDI has no further comments on the draft decision and rate order.
